Career Summary

“Solution driven individual with 5 years of professional experience in building responsive and cross-browser compatible captive portals for major hospitality chains and independent brands. An analytical problem solver skilled at adapting to new information. With strong foundation in customer service, the importance of a job well done is well understood.”

Professional Experience

Intertouch Business Solutions Inc.

BGC, Taguig City

Senior Web Design and Development Associate

Oct 2019 to January 2023

- Transformed web design drafts into functional API-integrated websites for Cloud-based captive portals, ensuring cross-browser compatibility and responsive design across both web and mobile platforms.
- Managed multilingual content translation, customized, and updated existing website designs and features to meet client specifications.
- Collaborated with QA to collect website request or issue data for handover to the backend development team.
- Guided and supported the web design and graphics team to ensure their queries and deliverables met established standards.
- Spearheaded enhancements within release cycles to optimize efficiency for the timely delivery of short and long-term goals.

Web Design Associate

Apr 2018 to Oct 2019

- Transformed web design mockups into a functional website based on a default template layout, serving as a captive portal for hospitality clients.
- Oversaw content translation for multiple languages, tailored, and enhanced existing website designs and functionalities in accordance with client requirements.
- Implemented script injection using JavaScript, enabling greater flexibility and customization in site designs.

Technical Support Representative

Dec 2015 to Apr 2018

- Handled inbound calls and responded to emails, aiding users in connecting to the site network.
- Developed a variety of JavaScript bookmarklets to streamline data collection and simplify URL access into a one-click process.
- Handpicked as an ad hoc programmer under the Training Department to develop a troubleshooting tool with automated documentation using VB.NET and MySQL.

Concentrix (formerly Convergys Philippines)

Shaw Blvd., Mandaluyong City

Technical Support Professional for QuickBooks

Sep 2014 to Mar 2015

- Took inbound calls to assist clients in accounting software familiarization and troubleshooting of software related/user input error

Sequential Technology International (formerly Omniglobe Intl.) Eastwood, Quezon City

Customer Service Representative for AT&T

Dec 2012 to Nov 2013

- Took inbound calls to assist clients in familiarizing with web site experience and account restoration
