## Professional Experience

**Intertouch Business Solutions Inc.**          BGC, Taguig City

### Senior Web Design and Development Associate          Oct 2019 to January 2023
— Translate web design mockups into operational API-integrated websites for Cloud-based captive portals utilizing HTML, CSS, Bootstrap, Flexbox, JavaScript, jQuery, and Handlebars.
— Guarantee cross-browser compatibility and responsive design across web and mobile platforms.
— Manage, update, and customize existing sites to meet client specifications.
— Oversee content translation management for 14 languages using JSON and jq.
— Spearhead enhancements within release cycles to optimize efficiency for timely delivery of short and long-term goals.

### Web Design Associate          Apr 2018 to Oct 2019
— Transformed web design mockups into a functional website, serving as a captive portal by exclusively modifying CSS within a default site template.
— Managed content translation across 13 languages within Django framework.
— Implemented script injection using JavaScript, enabling greater flexibility and customization in site designs.

### Technical Support Representative          Dec 2015 to Apr 2018
— Handled inbound calls and responded to emails, aiding users in connecting to the site network.
— Developed a variety of JavaScript bookmarklets to streamline data collection and simplify URL access into a one-click process.
— Handpicked as an ad hoc programmer for the Training Department to develop a troubleshooting tool with automated documentation using VB.NET and MySQL.

**Concentrix** (formerly Convergys Philippines)          Shaw Blvd., Mandaluyong City

### Technical Support Professional for QuickBooks          Sep 2014 to Mar 2015
— Took inbound calls to assist clients in accounting software familiarization and troubleshooting of software related/user input error

**Sequential Technology International** (formerly Omniglobe Intl.)          Eastwood, Quezon City

### Customer Service Representative for AT&T          Dec 2012 to Nov 2013
— Took inbound calls to assist clients in familiarizing with web site experience and account restoration
